**Important Health Warning: Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.**

Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

MAIN MENU
Choose between the Campaign, Multiplayer and Zombies.

CAMPAIGN
Pick up where Call of Duty: Black Ops ended and continue the single player experience in the Call of Duty: Black Ops II campaign. From the Campaign menu you can resume your most recent campaign or start a new one. You may also use the Mission Select option to reply an already completed mission at any difficulty.

*Note: Black Ops II uses an automatic checkpoint save system to save your game progress. You may also choose to use the Save and Quit option from the in-game Pause menu.*

STRIKE FORCE
Strike Force missions in Call of Duty: Black Ops II offer a new and innovative spin on traditional Call of Duty single-player combat by melding real-time strategy tactics with tried and true first-person shooter functionality. Take on special story-related missions and complete them as either front-line soldier, top-down battlefield commander, or a variety of unique wartime drones. Succeed and bring victory to your country; fail and watch the consequences play out alongside the main campaign storyline.

MULTIPLAYER
Compete with other Call of Duty: Black Ops II players online and locally in a variety of maps and game modes in Multiplayer (MP). Unlock new weapons, attachments, perks and rank up in MP!

ZOMBIES (1-8 PLAYERS)
Survive the Zombies hordes alone, cooperatively or competitively in the new and expanded Call of Duty: Black Ops II Zombies experience. Group up with friends to repel waves of increasingly deadly Zombies in the traditional Survival mode, compete against another team of Zombie apocalypse survivors in an epic battle to be the last group standing in the brand new Grief mode, or experience a whole new level of Zombies strategy in TranZit, the first ever Zombies campaign. But be warned: there are more than just Zombies lurking in the town of Green Run…

OPTIONS
Adjust the game’s settings to suit individual preferences. Adjustable options include: controller settings, aim assist, look sensitivity, graphic content filter, and subtitles.

STEREOSCOPIC 3D
Call of Duty: Black Ops II supports stereoscopic 3D gameplay, which can be toggled on/off from within the Options menu. Please note that a 3D capable television and accompanying active shutter 3D supported glasses are required to experience the game in 3D. Consult your 3D TV manufacturer’s instructions for more information on enabling 3D viewing.
**CAUTION!**

3D Safety Precautions: Some people may experience discomfort (including eye strain, eye fatigue, or nausea) while playing stereoscopic 3D games on 3D televisions. If you experience such discomfort you should immediately discontinue viewing and gameplay until the discomfort subsides.

Generally we recommend that you avoid prolonged gameplay and take 15 minute breaks during each hour of play or viewing. However, the length and frequency of necessary breaks may vary from person to person – please take breaks that are long enough to allow any feelings of discomfort to subside. If you experience serious discomfort or pain or if symptoms persist, stop gameplay immediately and consult your doctor.

Always follow the safety precaution information and use instructions supplied with your 3D television and 3D glasses for proper usage.

**HEADS-UP DISPLAY**

1. **Mini-Map** – Shows map of local area plus locations of friendlies and known hostiles.
2. **Match Info** – Displays current score, team icon and the time remaining in match. (MP Only)
3. **Grenade Indicator** – Icon warning you that there is a grenade nearby, arrow indicates the location of the grenade.
4. **Crosshair** – Indicates where you are currently pointing your weapon. Turns red when positioned over an enemy, green when positioned over a friendly. Walking or running causes the crosshair to grow wider or sometimes disappear altogether, indicating a loss of accuracy. Stopping movement, crouching and going prone increase accuracy.*
5. **Use Icon** – This only appears when you are near a weapon or interactive object, indicates what button to press to interact with the weapon or object.

6. **Scorestreak Inventory** – Indicates how many points you need to acquire the next Scorestreak, and which Scorestreaks you have chosen to be able to earn during the match. Any acquired Scorestreak can be used in the Scorestreak Inventory by pressing up or down on the D-Pad to cycle through them and pressing right on the D-Pad to equip them.

7. **Weapon Indicator** – Indicates which weapon you are currently using.

8. **Ammo Count** – Shows remaining bullets for currently equipped weapon, as well as remaining grenade supplies.

9. **Inventory** – Displays equipment and/or weapon attachments that are currently available.

10. **Damage Indicator** – Red marker shows that you are taking damage and the direction the damage is coming from. *(See Health System, on page PAGEHERE). NOT PICTURED ABOVE*

   *Note: When you press the ADS button, you will aim down the sights or scope of your weapon. This will greatly increase your accuracy and decrease your movement speed. While in ADS the crosshair will disappear.*

**HEALTH SYSTEM**

When you take damage from enemy fire, blood splatter will appear and the damage indicator will show you the direction the fire is coming from. As more damage is sustained the screen will grow redder, you will hear your heart rate increase, and your breathing will grow heavy. If you can cover and avoid enemy fire you will slowly recover from the damage and be able to continue at full strength.

**PAUSE/OBJECTIVE SCREEN**

Press the button any time in Campaign or Zombies to pause the game and access this menu. From here you may access game Options, restart the current level or save and quit to the Main Menu.

**MULTIPLAYER OBJECTIVES SCREEN**

Call of Duty: Black Ops II cannot be paused while playing in MP mode. Pressing in MP will bring up a menu that will allow you to choose a new class (taking effect on your next spawn), view the description of your current game mode, and access the Options menu. Keep in mind that the MP match is still live in the background when you are in this screen.

**CALLING CARD (MP ONLY)**

Access your Calling Card to create your own custom Emblem that will represent your persona online. View Recent Games you or your friends have played and save them to your File Share for safe keeping. You can view and rate other Films, Clips, Screenshots, and Custom Games created by members of the Call of Duty: Black Ops II community.

You can also view all your key game statistics in the Combat Record, check your progress against the in-game Challenges, view the game Leaderboards, and create a Clan Tag all from within the Calling Card.

CUSTOMER SUPPORT

Note: Please do not contact Customer Support for hints/codes/cheats; only technical issues.
Internet: http://www.activision.com/support

Our support section of the web has the most up-to-date information available. We update the support pages daily, so please check here first for solutions. If you cannot find an answer to your issue, you can submit a question/incident to us using the online support form. A response may take anywhere from 24–72 hours depending on the volume of messages we receive and the nature of your problem.

Note: all support is handled in English only. Note: The on-line multiplayer component of Activision games are handled only through web support. Phone: (800) 225-6588

You can call our 24-hour automated voice system for answers to our most frequently asked questions at the above number. Contact a Customer Support representative at the same number between the hours of 9:00 a.m. and 5:00 p.m. (Pacific Time), Monday through Friday, except holidays.

Please see the Limited Warranty contained within our Software License Agreement for warranty replacements. We recommend that you first contact an Activision Technical Support Representative by phone or internet before sending your product to us. In many cases, a replacement is not necessary to resolve your problem. Our support representatives will help you determine if a replacement is necessary. If a replacement is appropriate we can issue you an Incident/Reference number to help process your replacement. Non-warranty game returns/refunds should be dealt with by the retailer or online site where you purchased the product.

Xbox 360® console, and accessory manuals for important safety and health information when using video games. Even people with no history of seizures or epilepsy may have an increased susceptibility to photosensitization when playing video games. Farther from the screen; using a smaller screen; playing in a well-lit room, and not playing with the lights off or in a dark room can help prevent photosensitivity. Symptoms can include light-headedness, altered vision, or no symptoms at all. If you or someone you know experiences any of these symptoms, consult a doctor before playing.

The Entertainment Software Rating Board (ESRB) ratings are designed to provide appropriate guidance for consumers, especially parents, with concise, impartial guidance about the age-appropriateness and content of computer and video games. This information can help consumers make informed decisions about which games are suitable for their children and families.

ESRB ratings have two equal parts:

1. **Rating Symbols**
   - Age Range (e.g., E for Everyone, T for Teen)
   - Content Descriptors (e.g., Violence, Fantasy Violence)

2. **Descriptive Material**
   - Brief descriptions of elements in a game that may have triggered a photosensitive seizure in the past

Content Descriptors appear on the front of virtually every game box available for retail sale or online purchase. These descriptions help consumers identify potential risks or concerns.

Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the purchaser finds the recorded medium of the Program defective within 90 days of original purchase, Activision agrees to replace, free of charge, such recorded medium of the Program discovered to be defective within such period upon its receipt of the recorded medium of the Program, as long as the Program is still being manufactured by Activision.
